

BLISS & NYITRAY, INC.
STRUCTURAL
ENGINEERS

September 10, 2008

Reference: Performance of Contex Construction Company

To whom it may concern,

Contex recently completed construction of the shell on a high-profile, \$23 million college science building in which Bliss & Nyitray was the structural engineer. In my 22 years as a structural engineer in Miami-Dade County (and a few years before that as a General Contractor), I have rarely had such a positive experience with a subcontractor.

Contex was very proactive, thoroughly understanding and coordinating the structural and architectural documents in advance on a relatively intricate and complex project. They communicated clearly and early, thereby keeping the need for RFIs to a minimum.

From top leadership to the workers, Contex took pride in their work and focused on quality. The quality and finish of the architectural exposed concrete on this project was exceptional.

Contex consistently displayed a good attitude and worked in partnership with the Construction Manager, Architect and BNI to "do the right thing". They also recognized and admitted when they made a mistake, which was infrequent.

By demonstrating these rare qualities, I highly recommend Contex for structural work on similar projects. Please contact me if you have any questions about Contex' qualifications or character.

Sincerely,

BLISS & NYITRAY, INC.

To whom it may concern:

I would like to take this opportunity to commend Contex Construction Company, Inc. for the quality of the professional service they have provided and continue to provide for one of the most important buildings designed in our office; The Miami Dade College Science Complex. Contex developed a complete understanding of the structural and architectural requirements of the building and executed brilliantly. Throughout the construction process Contex has been able to maintain a rigid schedule while delivering one of the best architectural concrete finishes I have seen.

Please do not hesitate to call me at (305) 445-3765 if you have any questions or if I can be of any assistance.

Sincerely,

M.C. Harry and Associates, Inc.

To whom it may concern:

This letter will acknowledge that we have contracted with Contex Construction Co. since 2003 for multiple projects . They have been our primary provider for the concrete shell portion on many of our past and present projects. The cost range varies from a few thousand dollars to \$2.6 million for current projects Christopher Columbus High School Media Center and \$2.2 million for Ojus Elementary School.

Contex Construction is very cooperative with our on-site superintendents and has produced a product that is above industry standards, and it is our intent to continue working with Contex Construction Co. on future projects.

Please contact me should you have any questions regarding the above.

Very truly yours,

STOBS BROS. CONSTRUCTION CO.

To Whom it May Concern:

Please know that our company has had a great experience with Contex Construction as our shell contractor. Contex has done excellent work for us, been extremely reliable, and has added significant value in terms of anticipating problems and providing solutions. Contex is among the few remaining quality contractors in South Florida in terms of the knowledge, experience, and communication they bring to their work.

Our company has developed and constructed over 1,300 residential units over the past several years, and I would count Contex among the best of the contractors who have worked with us.

Please feel free to contact me at (954) 472-3050 x121 if you need any additional information.

Sincerely,

A handwritten signature in blue ink, which appears to read "Oliver Pfeffer".

To Whom It May Concern:

Contex Construction Co Inc. has been a client of Tarmac America, LLC for the past 4 years. In that time I've had the opportunity to work with the company, and they always paid in a timely manner and have exceeded their level of commitment on a variety of projects.

At all times the officers and site managers of the company have shown a level of knowledge and experience that has ensured correct and accurate construction practices.

It is my pleasure to recommend this company. They have proven over the years to strive for integrity and perfection in all of their undertakings.

If I can be of further service, please call me at (954) 425-4189

Sincerely,

Carmen Tottenhoff
